Digital For Dental

Working with leading brands from specialist dental manufacturers to make your practice life easier, more efficient and more profitable. We sell, service and support all your hardware and digital software.

Introduction

Hello, my name is Matt Littleton and I'm Wysdom's Technical Operations Manager. I've been supporting our customers with everything relating to digital and technical equipment since I joined the company in 2011.

Our customers have always been at the centre of everything we do and, with many of us having clinical experience, we take great pride in consistently delivering exceptional levels of service and advice that are tailored specifically to you and your practice. An initial chat is always useful.

Take a look at the next few pages to see just a small sample of the types of equipment we can supply.

Interested to know more? Call me on 01908 324045 or visit our website. I look forward to speaking with you soon!

Matt
